Technology Legislation in 108th Congress to Date:

- Appropriations and Authorization Bills:
 - Defense
 - Intelligence
 - DHS
 - Transportation and Infrastructure
 - Commerce State Justice and Judiciary
- Energy Omnibus Bill (H.R. 6)
- Anti Spamming Legislation
- Privacy Legislation Initiatives

Large Areas of Technology Development Driven by 9/11:

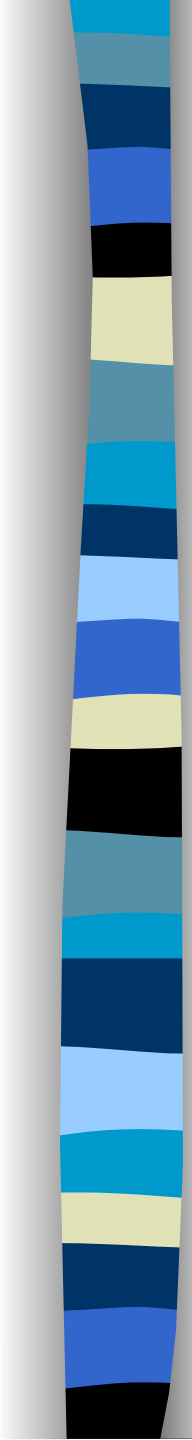

- Bio-terror Protection
- Radioactive Protection
- Vaccines
- Alternative Fuels
- Data Mining
- Pipeline Infrastructure
- Biometrics
- Remote Imaging
- Firewalls
- Natural Resource Protection
- Electric Power Grids
- Transportation Security
- Immigration Control
- Secure Identification Documents
- Explosive Detection
- Baggage Screening
- First Responder

The Challenge of Policy & Budget:

Ideas are cheap and implementation is expensive

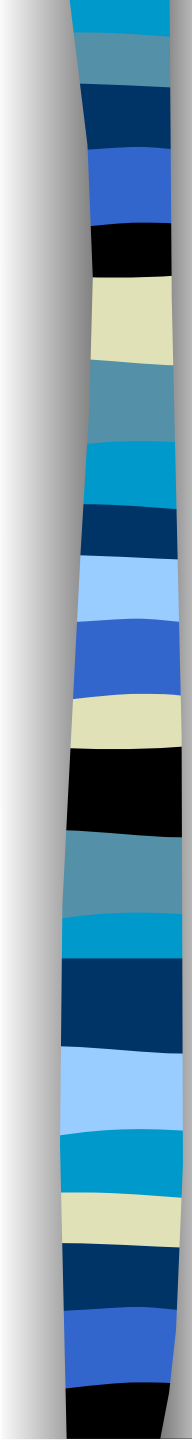

- DHS
- TSA Screeners
- Biometric Standards
- Border Crossing
- Vaccine Production
- First Responders
- Corporate Obligations
- State and Local Obligations

Trends in Technology Issues:

Backlash on Early Post 9/11 Legislative Reactions

- Concerns over Privacy -- CAPPS II and TIA and DARPA
- Over Worked and Under Staffed Agencies
- Public and Media Skepticism of Intelligence Gathering Programs
- Under Funded Mandates and Budget Deficits
- Shift in Focus to Economic Recovery
- Educational Efforts
